FALL 1945 -- SPRING 1946

Beautify Your Garden with the World's Finest

Roses

Our rose bushes are all good, healthy, field grown No. 1 grade. Each bush is labelled true to name. If any prove not true, we will gladly replace them.

All of our rosebushes are budded on Odorata root stock. From tests conducted in many sections of the country, this root stock has proven the best, as hybrid-tea varieties budded on it outgrow and live longer than on other root stocks. We grow all the rosebushes offered for sale in this catalogue in our nursery near Stockton. We also exercise the greatest care in digging, packing and shipping so that they get to you in the best of condition.

We will replace any bushes that you receive from us that were

damaged in shipping if notified within ten days, but do not replace good bushes that are planted and do not grow as there are too many soil and climatic conditions that we have no control over.

The first spring after planting rose bushes only remove old flowers, leaving all stems and leaves possible. If flowers are cut with long stems the first spring it weakens the plants.

All of our bush roses, if given proper care, will bloom for you the first Spring and will continue all Summer and Fall. Climbing roses bloom very little the first year, but will be covered with bloom the second Spring.

Instructions for Ordering by Mail

We start shipping rosebushes December 1st and stop March 1st. Please do not order bushes to be shipped later.

Send your order early so as to get all the varieties you want. Please send cash, check or money order with order. No. C. O. D. orders accepted. Also we ship no orders amounting to less than \$3.00. Please mention if you want us to substitute in case we are out of some varieties that you ordered. If so give names of a few varieties that you prefer. If you do not state your choice, we will substitute others of the same color, selecting a better variety if possible.

At our Nursery, we can supply rosebushes in gallon cans as late as June, but we do not ship these.
